

FORWARD

Advocating for Change

Forward is a non-partisan group, welcoming all who are believers in democracy, liberalism, positive change & progressive policies and politics.

Our beliefs stem from our own experiences, and beliefs that Britain deserves better from its elected MPs, and local councillors, and by working with local Forward Groups, we would be able to make recommendations for people to back in elections, based on local matters, and national issues facing everybody.

Forward was formed due to infuriation with many politicians failing to serve, instead we aim to advocate for the people's views, providing a megaphone for the masses, whilst working closely with local groups to amplify the issues of the people.

We will soon begin to form local groups of Forward members, of all parties, to be able to create a strong and rigid platform for Forward. This will likely take place in early 2023.

Launching Pledges:

- We (Forward) aim to provide recommendations to residents on which candidates in upcoming elections are best able to act on their views, and to serve them effectively.
- We aim to be impartial to party issues, instead recommending candidates based on their parties' manifesto & their personal record (eg: Previous experience in Council)
- To advocate for tactical voting to remove incumbents who do not represent their constituencies / wards adequately.
- To not be an 'echo chamber' for extremist views & to instead advocate for education and awareness.
- To preserve & support democracy. And to protect freedom of expression, and human rights.
- To help provide a voice for all, on local and national level issues.
